

# ANURAG SUCHAK

Pune, Maharashtra | +91 8208664164 | anuragsuchak6423@gmail.com

## SUMMARY

Detail-oriented and motivated Computer Science graduate with hands-on experience in data administration and the complete lifecycle of digital assets. Proven ability to streamline data workflows, ensure data integrity, and manage large volumes of information. Seeking to leverage a strong foundation in data management, technical skills in Python, Java, and SQL, and a passion for problem-solving in a challenging Data Analyst or Data Engineer role.

## PROFESSIONAL EXPERIENCE

**DATA ADMINISTRATOR** - NSTARIZ EDTECH PVT LTD — Pune, Maharashtra Oct 2024 - PRESENT

- Oversaw the complete lifecycle of educational video assets, from managing raw footage post-shoot to secure server upload and organization.
- Streamlined the video data workflow by managing raw footage, ensuring data integrity, and executing timely uploads to the digital content repository.
- Coordinated the management of all video data, handling the process from raw footage acquisition to its final placement on production servers.

## EDUCATION

**Bachelor of Science - Computer Science** (2021 - 2024) **CGPA:** 8.62

H. V. Desai College, Pune

**Master of Science - Computer Science** - 2025 - Pursuing Expected -2027

H. V. Desai College, Pune

## CERTIFICATIONS

**Data Associate - 2024**

Symbiosis Skills and Professional University

## PROJECTS

### Human Resource Management System (HRMS) Final Year College Project

- Developed a comprehensive Human Resource Management System to streamline HR operations, including employee data management, payroll, and attendance tracking.
- Utilized Java, Spring Boot, and MySQL to build a robust and scalable system.
- Improved HR efficiency by automating key processes, reducing manual workload and potential for errors.

### Handwritten Word Recognition

- Created a machine learning model to recognize and interpret handwritten words with high accuracy.
- Used Python and libraries such as TensorFlow and Keras for model building, training, and image processing.
- Successfully trained the model with a large dataset, achieving 90% accuracy on test data.

## TECHNICAL SKILLS

- **Programming Languages:** Java, Python, PHP, C, C++
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Big Data Technologies:** Big Data Concepts, Kafka
- **Data Science:** Numpy, Matplotlib, Pandas, Machine Learning, Power BI, Tableau
- **Cloud:** AWS ( EC2)
